Meier Meadows Farm

5N Dakota Road

Ridott, IL 61067

Exemption 6 and Exemption 7(C)

Glenn Meier

Exemption 6 and Exemption 7(C)

A brief visit was made to the above dairy facility. The facility had received a NCA on 7-6-11 and submitted an acceptable response toward the Advisory letter. Some of the proposed improvements were completed in late Fall of 2011. Attached are the photos of the concrete storage structure that was completed in December of 2011 to correct the feedlot discharge compliance issue.

Earthen berms were completed near the dry cow lot and also by the dry lot used by the milking animals. All the compliance issues have been completed at the livestock facility location except the development of the CNMP which will be delayed beyond the proposed June 2012 timeline due to a NRCS clerical error in the qualifying process. Late 2012 is a more reasonable expectation for the completion of the CNMP.
